

Impinger® FastBake™

Bake Faster. Bake Better.

Bake Faster. Bake Better.

Lincoln Foodservice Products FastBake™ Impinger® Ovens feature a patent-pending airflow technology designed to reduce baking time for items such as pizza by up to thirty percent over all other impingement ovens!

Increase capacity. Save Energy. Reduce bake time by as much as 15-30%.

PERFORMANCE YOU CAN SEE

FastBake technology allows the ovens to provide a higher level of heat transfer to food, thus reducing cook times. Computational Fluid Dynamics (CFD) allows designers to see the flow and intensity of liquids, gases, and air. Using this software to view impingement airflow from one orifice, it is possible to see that FastBake transfers heat more efficiently than any other air impingement oven, creating a faster and better quality bake.

QUALITY YOU CAN TASTE

FastBake is revolutionizing the way pizza tastes on a conveyor belt. Gum lines are eliminated and vegetable toppings are hot and crisp without leaving water on the cheese. In addition, FastBake is more tolerant to differences between products. The result is that more varied items come out perfectly baked. Call today and arrange a demonstration with a Lincoln Sales Representative and see for yourself!
